

AV200CN FAIL-SAFE

Inverted/Vac Assist Shear Pin Breakaway for Stage II Vapor Recovery

Catlow's Inverted/Vac Assist Breakaway is the leader in new technology. The AV200CN was the first in the industry to be specifically designed for all vac assist systems.

While protecting the environment, the AV200CN will protect your valuable dispensers and equipment during a drive off. The dual check valves in this breakaway shuts off the fuel in both ends of the breakaway.

Features:

- Mates with M34 metric thread vac assist hoses
- UL/ULC Listed
- Meets NFPA 30A Codes
- C.A.R.B. Certified
