Report Date: February 22, 2010
Submitted by: Bob Danford, Allied Electronics, Inc.

Gilbarco Systems

Version(s)	Status	Release Notes
PGA5000S	N/A	<ol style="list-style-type: none"> 1. Initial version of Pilot Gilbarco software that adds PABP compliance. 2. Added support for Canadian debit. 3. Added support for the Gilbarco EPP. 4. The number of available fuel types been reduced from 78 to 50. 5. Fixed issue where the dispenser would fill to the volume limit even when the dollar limit was the lower of the two settings. 6. Added a new field to the DPT Prompt message (DPT X) called Beep Enable. Valid field values are 'Y' for enable, and 'N' for disable. The default is 'Y.' 7. Price changes that have occurred during a transaction will always be updated at the conclusion of a sale. If a discount has been applied to the transaction, the <i>Sales Display Delay</i> timer will be ignored.
PGA5001S Rev 1	QA	<ol style="list-style-type: none"> 1. This build supports the DPT 'g' message – POS controlled printing at the DPT.
