

Direct Replacement for the Verifone™ 950 Printer

VER-3200 Thermal TM-U950 Replacement

(Custom interface for Verifone Ruby W/Switch operated electronic journal)

Now With More Memory!

With its unique high-speed DMA (Direct Memory Access) the VER-3200 is a thermal printer capable of "real-world" max speeds of over 8.5 inches/second and offers variety of advanced printer features including: Spill-Shield™ design to prevent damage from moisture or foreign objects to the internal mechanism, large capacity (4 inch) drop-in paper loading.

*** * * Note: VER-3200 does not support slip printing. * * ***

FEATURES

- Stores journal electronically for daily printing.
Holds 32mb of information or approximately eighty, 425 ft. rolls.
- Journal information accessed via Rocker switch.
- Four inch drop in paper roll capacity, a time saving at the checkout.
- Has a 425 ft. paper capacity, TM-U950 has 150 ft. paper capacity.

- Uses your existing TM-U950 printer cable and adapter. □ Independent internal power supply (Doesn't need power brick)
- Over 8.5 inches/second high-speed printing.
- Easy paper loading, drop in and print.
- Auto paper cutter.
- Prints receipts 5 times faster than the Verifone™ 950 printer
- Small size and front paper exit make printer ideal for under counter location.
- Spill-Shield™ designed to prevent liquid spills from entering internal mechanism.
- Thermal printers have less moving parts than other printers
- Much quieter than the TM-U950 dot matrix printer.
- 1 year warranty
