Product Description: Will not absorb water or water-based chemicals, use outdoors if need be. Highly absorbent and dust-free. Helps keep a clean and safe working environment. Use these socks to surround spills and stop migration or to contain spills around machines and drums. Sturdy, absorbent socks are used to absorb and contain spills around machines or drums. Wrap socks around machinery to act as a dike. Also use socks to surround the spill, preventing liquids from spreading over the plant floor or down drains.
