HOW TO ORDER PARTS

To insure correct and prompt delivery of parts, furnish the serial number, model number and any existing code number on the dispenser serial plate, located on the left front base of the dispenser, a sample of which is shown below.

When ordering parts supply the following information:

- **Serial number of dispenser.**
- **Model number of dispenser.**
- **Part number.**
- **Description of the part.**
- **Quantity desired.**

NOTE: The Model and Serial No. above are examples only. 1/V390 Shown.

NOTE: When ordering parts with particular company specifications such as doors, advertising panels and dial faces, please call our Service Parts Department at with specific dispenser model number and serial number. All warranty parts are to be ordered through local distributors.

HOW TO LOCATE PARTS

How to locate part number:

- Locate your model number in the List Of Models.
- Locate the module (by name and part number) listed under the model number.
- Use the List of Tables to locate the module, name and then part number, and turn to the page number indicated.
- Use the Module Drawing number (DWG) listed under the Part No. column in the table to find the corresponding module drawing.
- Find the part needed on the module drawing.
- Use the item* number on the drawing to find specific part number, quantity and description in the parts table for your model.

NOTE: The 1/Vista Series Parts Manuals use module drawings instead of the final assembly drawings used in previous manuals. To help find the correct module for your part location use “Module Location” on page vi.

NOTE: Some common part assemblies and sub-assemblies are shown in the Wayne 1/Vista Shared Assemblies parts manual, part no. 920345, and show a further breakdown of parts.

*The item numbers shown on the illustrations are intended only to locate the part number and description in the accompanying table of parts. **Do not order parts by item number.**

"NOTE: This equipment has been tested and found to comply with the limits for a Class A digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference when the equipment is operated in a commercial environment. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instruction manual, may cause harmful interference to radio communications. Operation of this equipment in a residential area is likely to cause harmful interference in which case the user will be required to correct the interference at his own expense."
